**Instagram:** @InterlocksSurv

## Who are we?

Interlocks Surveys Limited was established in 1995 and Incorporated in 2000.

The business has become one of the principal independent land surveying companies and is regulated by The Royal Institution of Chartered Surveyors.

Do you require a quotation for a project you have coming up?

Email us on

[info@interlocksurveys.co.uk](mailto:info@interlocksurveys.co.uk) or

telephone us to discuss your requirements on 01926 330123.

*If you would like to find out a little more about us click [here](#) to see our new website!*

## RIVER SURVEY

We have been making the most of the dry weather recently, and have surveyed over 200 river cross sections for 3D hydrographic modelling recently. However, the project was not as eventful as the last one when the surveyor wading the river encountered a swimming snake! Most likely a grass snake, apparently proficient swimmers! To find out more about River Surveys, click [here](#).

## WELCOME ABOARD

Our team has expanded over the past couple of months, and will continue to this summer! We have two new CAD technicians starting with us with a wealth of knowledge to support us in the coming months with some new projects in the pipeline. Emily has also joined the Interlocks team as a Land and Measured Building surveyor who has been in the industry for over eight years!

## ST WILFRID'S CHURCH

We have been working on an interesting conversion project at St. Wilfrid's church, for our client MLB Steel, who specialise in designing and manufacturing structural steel. One of the key design features is that the new structure fits inside the old and can be removed should you wish to restore the grade II building back to its former use. Originally designed by Augustus Pugin who also worked on the Palace of Westminster, loosely attributed to Pugin and slightly less grand the railway cottages at Windemere have a copy of one of the palace's fireplaces

## EARTH DAY 2021

On Thursday 22<sup>nd</sup> April 2021 millions of people across the world celebrated Earth Day. The first earth day was celebrated in the year 1970, which has since helped raise awareness of the need for environmental transformations all across the world, promoting a zero-carbon future!
